

The Learning Tree's S.M.A.R.T. Program

Reading Writing and Arithmetic should not be forgotten over the summer, let's just get rid of the homework!

Our summer academics are designed to reinforce lessons learned and to promote deductive reasoning, logical thinking skills and test preparation going forward.

Welcome to The Learning Tree's Summer S.M.A.R.T. (Science, Math, Arts, Reading and Technology) Program. Each year our effort has been to progressively enrich our program. This year you will be very pleased with the plans we have for our children. Our summer program is divided into two four-week sessions.

This year our summer program begins on:

Session I July 1st - July 26, 2019

Session II July 29th - August 23, 2019

Mission Statement

The mission of The Learning Tree's (TLT's) S.M.A.R.T. Enrichment Program is to provide a summer option that is both enriching and fun for students entering the **1st through 6th** grades.

At TLT we believe that students should be stimulated year round. With this in mind, we have developed a program that we believe is that happy medium between summer school and summer camp; providing academic instruction in an interactive way while embracing the liberation of summer with a variety of field trips and sports

The doors open at 7:30 and our day begins with academics at 9:00 a.m. **Students MUST be picked up by 5:45pm.** The following subjects will be addressed:

Hands on Math

Fun Science

Reading Strategies

Writing Workshops

Arts & Crafts

A variety of special workshops

Technology

It is our hope that S.M.A.R.T. students will end the summer with a jumpstart for the upcoming school year. These students will have a S.M.A.R.T. summer and a smarter School year.
